**A. Personal Statement**

I supervise the Diagnostic Veterinary Parasitology Laboratory at the OSU CVM which processes all the OSU VMC, Blood Bank and referral DVMs parasitology-related diagnostic samples. I am an instructor in the VM I, II and III curriculum covering topics related to parasitology, zoonotic disease liability, and research methods.

As an investigator, I have experience and a publication record in the area of the molecular identification and in vivo characterization of protozoal parasites (*Sarcocystis*, *Neospora*, *Toxoplasma*, *Hammondia* and *Cryptosporidium*). This includes development of reagents such as monoclonal antibodies and parasite strains as tools for investigational studies.
